## • KR-18 Sheets

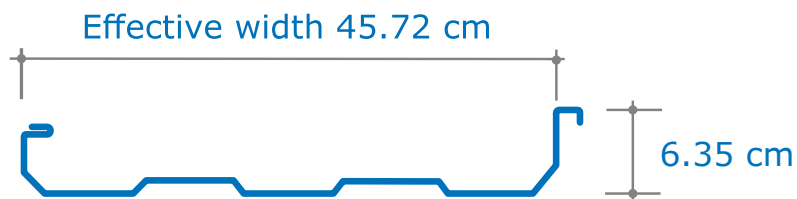

In Serviacero Comercial we offer rolls of KR-18 binding sheet to be manufactured at construction sites, so there won't be length-related issues as they are made as a single piece, easing hidden fixing through clips that are fixed to the structure allowing overlapped binding. Available finishes include Painted, Galvanized and Aluminum-Zinc in calibers 26 and 24.

It allows the installation of isolating materials and it can be used for covering low slopes.

We can see applications of this KR-18 sheet as cover in industrial and residential naces, commercial warehouses and supermarkets, among others.

KR-18 Sheets			
Finish	Caliber	Thickness	Width
Painted, Galvanized and Aluminum-Zinc	C-26	[0.01852 a 0.02152] inch.	[0.6095 a 0.6145] m.
	C-24	[0.02152 a 0.02452] inch.	[0.6095 a 0.6145] m.
